IMAGINE A MORE SUSTAINABLE COMMUNITY

Credit unions have been appointed Sustainable Development Goal (SDG) Champions for 2023 and 2024. But what does sustainable mean and why is this so important?

'Sustainable' means that something can carry on forever. We don't own the planet we live on or the communities we live in. We want to ensure that we look after it and protect it so that the future generations can enjoy it too.

We also want to ensure that everyone has access to the basics in life. That they have enough to eat and drink. That they have access to a good education and job opportunities. That everyone is treated equally and with respect.

The SDGs are a list of 17 important items adopted by the United Nations and countries throughout the world. By taking positive actions in our daily lives, the aim is to eliminate poverty, protect our planet and ensure that everyone can live a comfortable life.

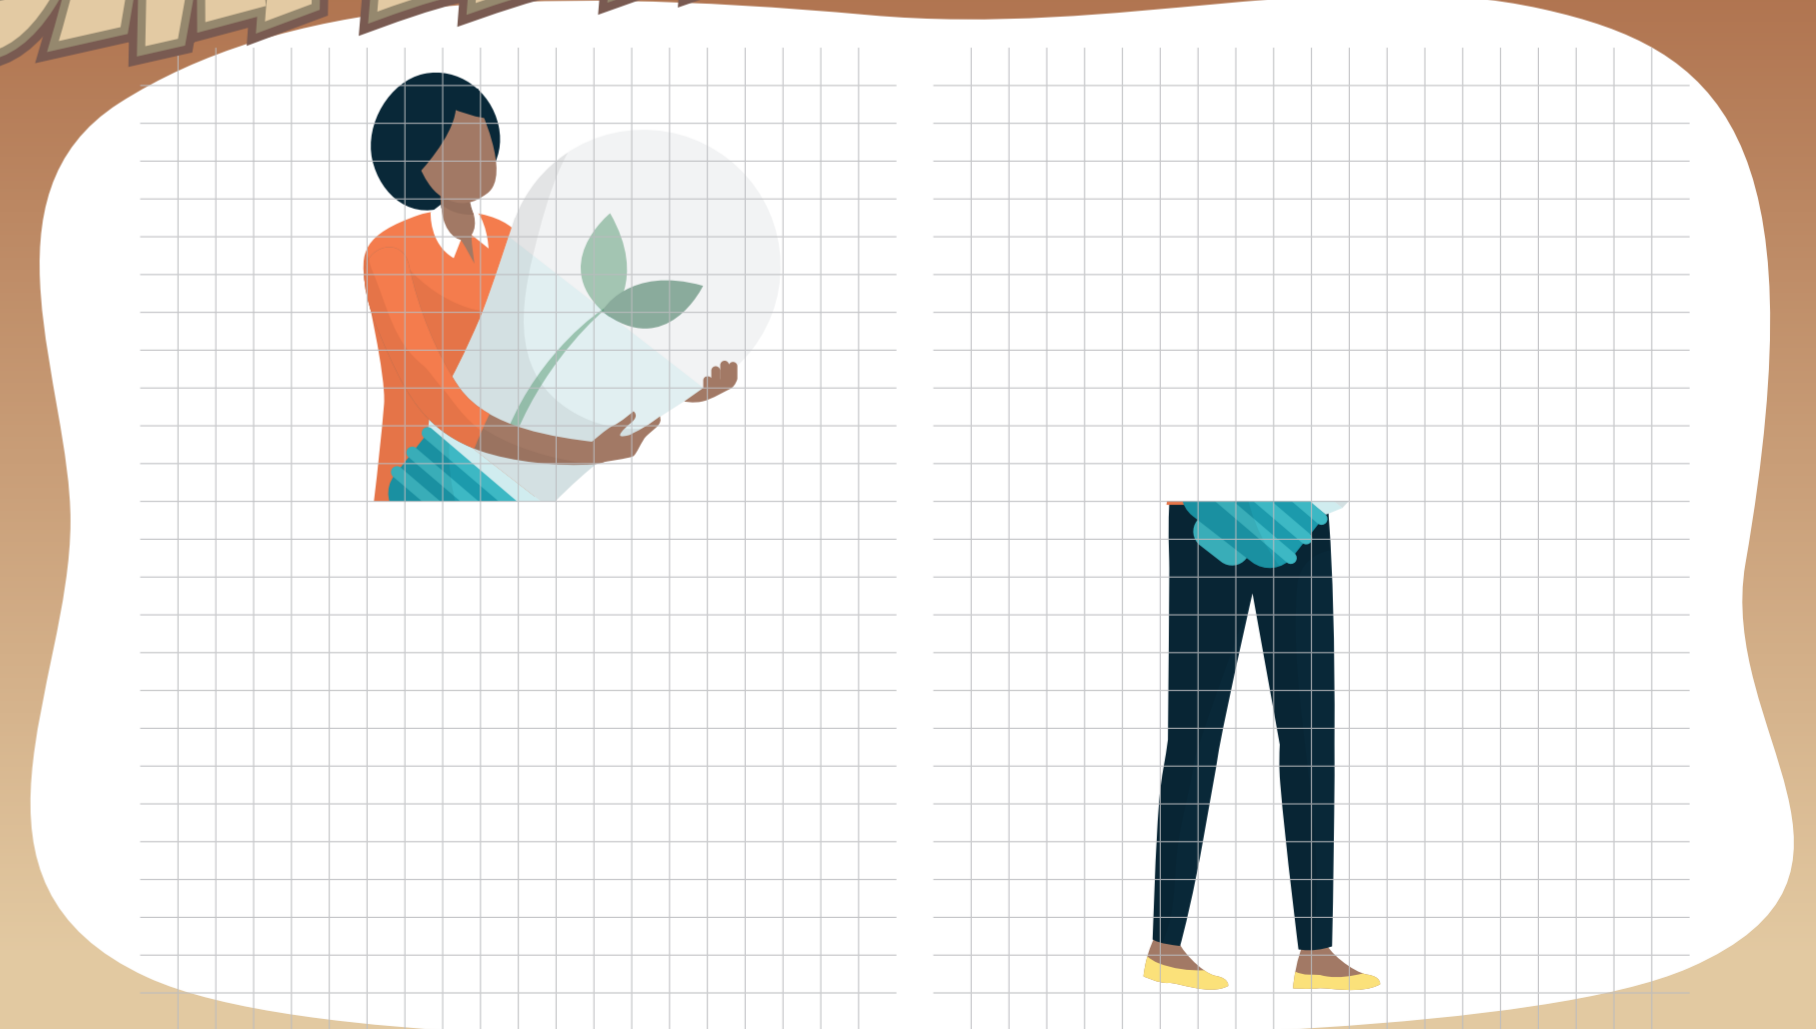

In our credit unions, we are working hard to be Sustainability Champions - both in the work we do and in encouraging others within our local communities to play their part too.
